AND EVOLUTION
RESEARCH AND PRACTICE

CONTENTS

Volume 16 Numbers 1–2 January–April 2004

Special Issue
Web Site Evolution

Issue overview
C. Boldyreff and P. Tonella 1

Modelling the evolution of legacy systems to Web-based systems
J. Lavery, C. Boldyreff, B. Ling and C. Allison 5

On the business value and technical challenges of adopting Web services
S. Tilley, J. Gerdes, T. Hamilton, S. Huang, H. Müller, D. Smith and K. Wong . . . 31

Migrating to Web services: a performance engineering approach
M. Litoiu 51

Reverse engineering Web applications: the WARE approach
G. A. Di Lucca, A. R. Fasolino and P. Tramontana 71

Statistical testing of Web applications
P. Tonella and F. Ricca 103

Analysis of Web-usage behavior for focused Web sites: a case study
M. El-Ramly and E. Stroulia 129

Volume 16 Number 3 May–June 2004

Displaying dependence graphs: a hierarchical approach
F. Balmas 151

Hypertext support for the information needs of software maintainers
J. Koskinen, A. Salminen and J. Paakki 187

Volume 16 Numbers 4–5 July–October 2004

Special Issue
Seventh European Conference on Software Maintenance and Reengineering (CSMR 2003)

Seventh European Conference on Software Maintenance and Reengineering (CSMR 2003)
M. G. J. van den Brand, G. Canfora and T. Gyimothy 217

Revitalizing modifiability of legacy assets
N. Veerman 219

An assessment strategy for identifying legacy system evolution requirements in *e*Business context
L. Aversano and M. Tortorella 255

A debugging strategy based on the requirements of testing
M. L. Chaim, J. C. Maldonado and M. Jino 277

Problems with front-end support
M. Kajko-Mattsson 309

Improving design quality using meta-pattern transformations: a metric-based approach
L. Tahvildari and K. Kontogiannis 331

Volume 16 Number 6 November–December 2004

Special Issue
Analyzing the Evolution of Large-Scale Software

Editorial
T. Mens, J. F. Ramil and M. W. Godfrey 363

Using software trails to rebuild the evolution of software
D. M. German 367

Visualizing feature evolution of large-scale software based on problem and modification report data
M. Fischer and H. Gall 385

Regular Articles

A metrics suite for grammar-based software
J. F. Power and B. A. Malloy 405

Expectation-based, inference-based, and bottom-up software comprehension PAP
M. P. O'Brien, J. Buckley and T. M. Shaft 427

PAPER REFEREE ACKNOWLEDGEMENT 449
